**OUR NATURE ASBL**
Association of lodge owners at the Your Nature site, Péronnes-lez-Antoing

Péronnes, 19 October 2026

**To whom it may concern**

**Open letter to investors and operators interested in the Your Nature site**

Dear Sir or Madam,

We are writing on behalf of the majority of lodge owners at the Your Nature site, represented by the non-profit association Our Nature ASBL. Our lodges, together with the common areas of the site which we own jointly, do not form part of the assets of Péronnes Invest SA, which is currently undergoing judicial reorganisation proceedings before the Hainaut Enterprise Court, Tournai Division. Since the bankruptcy of Your Nature SA in November 2025, we have held full ownership of our properties, free of any operating lease.

By a judgment dated 23 September 2026, the court extended the proceedings until 4 December 2026 and instructed the restructuring practitioner to compare the takeover proposals for the site. Through its judgments, the court has recognised the owners, who purchased their lodges between 2019 and 2024, as parties to the proceedings and directed that they be informed before any commitment concerning the site is made.

In practice, therefore, any operation of the site as a whole, by any investor or operator, will require our agreement. We wish to make it clear in advance that we are ready to give that agreement, provided it rests on clear and sound foundations.

We wish to put this as simply as possible: we believe in this project. We were the first to believe in it, purchasing our homes at the very outset, and we still believe in it today. A nature resort of this size, set within 300 hectares of woodland and ponds in Picardy Wallonia, one hour from Brussels and Lille, two hours from Paris, Antwerp and Rotterdam, and less than three hours from London, Amsterdam and Cologne, serves a catchment area of more than 25 million people looking for precisely what this site offers, close to home. If properly operated, it is a project with strong economic potential for the region, local employment and environmentally responsible tourism.

What has failed so far is neither the site nor the concept: it is the way they have been managed and financed. The owners want to be partners to those who will make the project a success.

The owners are ready to contribute to a solution that works for everyone: the creditors of Péronnes Invest, the investor or operator taking over the site, and the owners themselves.

On this basis, the owners wish to meet the prospective buyers and are open to any operator and any structure. They are also ready to support before the court the proposal that best achieves this objective.

We invite you to contact us directly as soon as possible, by email at united@ournature.be or by telephone on +32 496 93 55 07. You will find a presentation of the owners and the site on the association’s website, https://www.ournature.be/about.html. A copy of this letter is being sent to the restructuring practitioner, Maître Stéphane Brux, and to the delegated judge, with a request that it be forwarded to any party that has submitted, or intends to submit, a proposal for the site.

Yours faithfully,

Pascal Carré
President, Our Nature ASBL
